

~~Dear Pastor Steve,~~

Dear Pastor Steve, I'm talking about a couple things: Matt Swider and [redacted] Matt has been weird to me and weird to my family too.

First there was the thing with [redacted] and the leadership team. Also he always comes up to me at youth group and yells my name and gives me hugs and says he loves me, which I feel weird about. It feels creepy

considering I've barely known him a year. At one of my basketball games Matt yelled my name and said he loved me, I was dribbling a basketball so I didn't but still said hi back, after that he questioned my mom about why I didn't give him a hug, and he said "if your kids hate me then I can't be there youth pastor" this was before my basketball game and my mom got really upset. A couple weeks later at church Matt came up to me and yelled my name, I said hi back, but then it seemed like he got mad and was like "why don't you yell my name

When you see me any more?
Which was really upsetting to me
because it's like, I don't WANT to tell
your name or give you hugs after what
you have done to me and my family?
about the [redacted] [redacted] has gossiped
and lied about our family to other families
that I have good friends in. Since she
has done this I have lost multiple good
friendships because of this. I would like
it if you ~~try~~ try to fix this. ~~from~~
[redacted] from [redacted] of my [redacted] work
I was griping and ranting for a while
but still I park it for a while
and I don't want to report it to the
give me a hand? you're not
if you know what's up with me
I'll be there for you and your
potatoes and park for all your
not really about a couple of
at church what was up for me and
I'm not like I'm not like I'm not
I'm not like I'm not like I'm not
